Puducherry	5.5	1.3	4.1	18.0	7.2	7	3

Indicator Range      0.0 - 24.9%      25.0 - 49.9%      50.0 - 74.9%      75.0 - 95.0%

- i) AMB Index: The Index is calculated as the simple mean of the four selected coverage key performance indicators.
- ii) Numerators are from HMIS Standard Report 2019-20 (up to June 2019). The Denominators Indicator 1-3 are from Anemia Mukht Bharat – Dashboard 2018-19 (up Q1). Indicator 4 (Registered Pregnant Women) is from HMIS Standard Report (up to June 2019). The numerators and denominators account for monthly consumption frequency for indicators related to children: 6-59 months, 5-9 years and 10-19 years.
- iii) States/UTs are ranked based on AMB index with State/UT having highest index value ranked First and so on.
- iv) Status as on 24 Aug, 2019.

\* 95% is considered as the ceiling value for HMIS coverage for States/UTs.

# The HMIS data item code as per standard report is as follows:

1. HMIS 9.9: Children (6-59 months) provided 8-10 doses (1ml) of IFA syrup (Bi weekly)
2. HMIS 23.1 + 23.3: Children covered under WIFS Junior (5-9 years) provided 4-5 IFA tablets (In schools + out of school) per month
3. HMIS 22.1.1: Adolescent (10-19 years) provided 4 IFA tablets in schools per month
4. HMIS 1.2.4: Pregnant women (PW) given 180 IFA tablets.

## Anemia Mukht Bharat (AMB) Index, 2019-20 (Q1)

Chandigarh	15.1	6
Puducherry	7.2	7

### About AMB Annual Score Card

The Ministry of Health and Family Welfare (MoHFW), Government of India has launched the Anemia Mukht Bharat Program for accelerating decline in anemia prevalence and to achieve the POSHAN Abhiyaan (2018-2020) target of reducing prevalence of anemia among children 6-59 months, adolescents and women of reproductive age 15-49 years by 3 percentage points per year. The AMB aims to provide preventive and curative mechanisms through a 6x6x6 strategy including six target beneficiaries, six interventions and six institutional mechanisms, for all stakeholders to implement the strategy.

The AMB Score Card is developed with an objective to provide information on coverage of IFA supplementation across selected target beneficiaries to support assessment of progress and performance of the program. The AMB Score Card is based on data from Health Management Information System (HMIS) and AMB Dashboard. The rankings are calculated as the mean coverage of IFA supplementation across selected target beneficiaries. State/UT are ranked in descending order of the mean coverage whereby State/UT with best performance is ranked first.

This scorecard is prepared by AMB TST of Institute of Economic Growth in collaboration with UNICEF.
