Indicator Range for Positive Indicators

0.0 – 24.9%

25.0 – 49.9%

50.0 – 74.9%

75.0 – 95.0%

Indicator Range (reverse for negative indicators)

75.0 – 95.0%

50.0 – 74.9%

25.0 – 49.9%

0.0 – 24.9%

Indicator Range for Positive Indicators 1.5.2 & 1.3.1

4 or more %

3.0 – 3.9%

2.0 – 2.9%

1.9 or less %

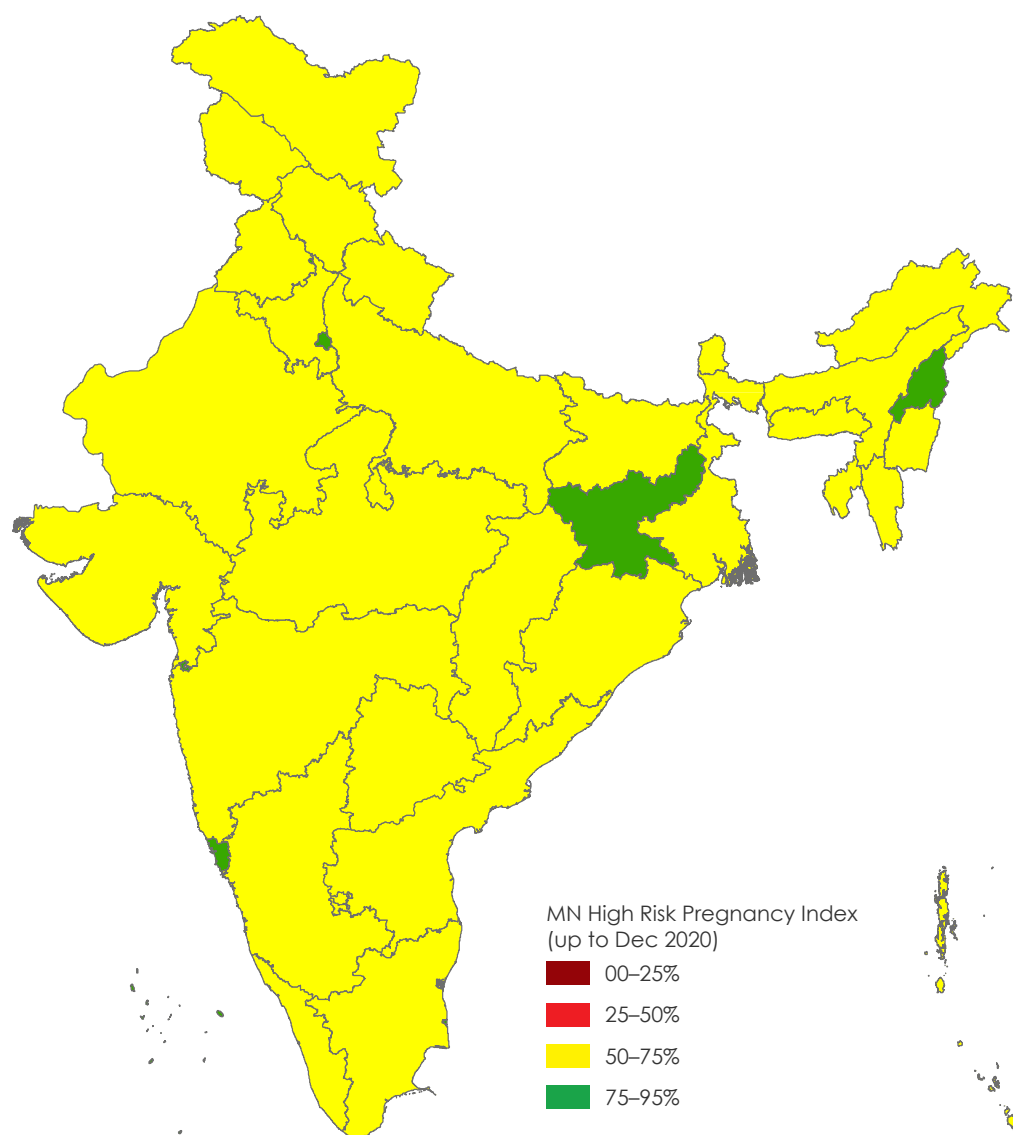

1. High Risk Pregnancy Index: The index is calculated as the simple mean of six selected coverage key performance indicators. Indicators viz. 1.5.3, 1.3.1.a and 1.4.4 are taken as positive indicators. Indicators viz. 1.4.2, 1.4.3, 1.5.2 and 1.3.1 are taken as negative indicators.

2. Numerators & Denominators are from HMIS Standard Report 2020-21 (up to December 2020).

3. States/UTs are ranked based on High Risk Pregnancy index with State/UT having highest index value ranked first and so on.

* 95 % is considered as the ceiling value for HMIS coverage for States/UTs.

About Maternal Nutrition Score Card

In India, despite of substantial reduction in MMR (22% decline in maternal mortality ratio (MMR), from 167 (2011-2013) to 130 (2014-2016) deaths per 100,000 live births), progress on maternal malnutrition and its related adversities has been slow. The WHO has placed substantial emphasis on nutrition assessment and provision of a set of nutrition interventions including provision of balanced energy protein supplementation, iron folic acid (IFA), and calcium supplementation, deworming, gestational weight gain monitoring and counselling on nutrition, family planning and breastfeeding coupled with efforts to prevent and treat maternal infections and anemia.

The High Risk Pregnancy Score Card is developed with an objective to provide information on coverage of reported high risk pregnancy indicators across pregnant women to support assessment of progress and performance of the maternal nutrition interventions. The Score Card is based on data from Health Management Information System (HMIS). State/UT are ranked in descending order of the mean coverage whereby State/UT with best performance is ranked first.

This scorecard is prepared by Institute of Economic Growth (IEG) in collaboration with UNICEF.
